Resume

Chief Warrant Officer (170D) and **technical section lead** transitioning toward civilian roles in **software engineering**, **security-focused development**, **cyber operations and analysis**, **red-team-adjacent / offensive security engineering**, and **technical program management**. Download PDF

Summary

Targeting **software engineering**, **application and systems security**, **cyber and threat analysis**, **red teaming and adversary-focused tool development**, and **Agile program leadership** (delivery, roadmaps, stakeholder coordination). Since 2022 has engineered and validated **tactical cyberspace capabilities** for **U.S. Cyber Command** and joint customers as a **cyber capability developer** and **Windows persistence** technical lead: **security-focused programming**, **Windows / OS internals**, **network exploitation**, **reverse engineering**, **code review**, and **developer training**, with a record of **leading critical projects** and improving release quality.

Education: B.S. Computer Science (Software Engineering concentration, **3.96 GPA**); **M.S. Computer Science** (AI), *in progress*, **Georgia Tech OMSCS**. **Credentials: Certified Advanced Cyber Programmer** (Windows CNO); **Advanced Certified ScrumMaster** and **Certified ScrumMaster**; military **Senior** and **Basic Cyberspace Capability Developer** qualifications (Windows persistence). **Languages and tooling** include **C**, **Python**, **Bash**, **PowerShell**, **GitLab CI/CD**, automated testing, and disciplined release practices.

Earlier service adds **cross-functional leadership** (SOF civil affairs, maritime engineering, tactical communications, **INFOSEC** compliance) and **mentorship** at scale; comfortable operating under **high-stakes deadlines** and translating mission needs into **measurable technical outcomes**.

Experience

Section Lead (Windows Persistence) (170D) - U.S. Army - *March 2025 – Present*

*Cyber Solutions Development - Georgia (**CSD-G**), **780th MI BDE**, Fort Gordon, GA*

- Current role

Cyber Capabilities Developer (170D) - U.S. Army - *February 2022 – March 2025*

*Cyber Solutions Development - Georgia (**CSD-G**), **780th MI BDE**, Fort Gordon, GA*

- **Tactical capability delivery (USCC / joint):** Served as **cyberspace developer technician** with **CSD-G**, delivering tactical **cyberspace capabilities** for **Cyber Mission Teams** in support of **Joint Forces Headquarters-Cyber** (Army and Marine components) and other **U.S. Cyber Command** organizations; enforced **release criteria** and validated capabilities for intent and **mission readiness**. Overall performance **EXCELS** (highest level); ranked **#2 of 2** warrant officers in grade; rater cited an **exceptional technical leader** whose timely feedback raised **capability quality** and mission outcomes.
- **Technical execution and Windows persistence: Led** development on **four** mission-critical projects; applied **security-focused programming**, **operating system architecture**, and **network exploitation** techniques while sustaining operations through **rigorous code review**. Advanced **Windows Persistence Senior JQR** by **>50%** in one rated year; after joining the Windows Persistence section, completed the **Mantech Advanced Cyber Training Program Advanced Windows Cyber Network Operations** course within **three months** of joining the **Windows Persistence** section.
- **Team lift and parallel education:** Built and delivered **reverse engineering** training (lectures and demos) that helped teammates hit **Senior JQR** milestones. Maintained **3.94 GPA** while finishing **>90%** of a **Bachelor of Science in Computer Science** alongside full-time mission work. Senior rater: **Highly Qualified**; **top 30%** of warrant officers served with; recommended for **greater technical responsibility**, and

promotion to CW3; successive potential as **senior cyberspace capability developer**, **development section technical director**, and **instructor**.

Cyber Capabilities Developer Technician (170D) WOAC - U.S. Army - *January 2024 – May 2024*

*Cyber School, Fort Eisenhower, GA · Class **24-001***

- **Academic distinction:** Completed **Cyber Capabilities Developer Technician WOAC** (Class **24-001**); **3.91 / 4.0** GPA (**97.65%**); **Superior Academic Achievement**, **2 of 6** in class; **class leader**; **Leadership Award**.
- **Engineering, delivery methods, and assessments:** Demonstrated advanced **Windows and Unix** development; applied **project management (PMP)** and **Agile**; **Advanced Scrum Master**; completed **Project Athena** assessments (**Leader 360**, **I-ADAPT**, **Army Critical Thinking Test**); strong **written and verbal** communication; authored an **excellent** battle analysis paper on the **Battle of Aiken**.
- **Rated attributes: Far Exceeded Standards** in **leads, communication, and engagement**; **Exceeded Standards** in **intellect / critical thinking and problem solving**; **Met Standards** in character, presence, develops/collaboration, and achieves/lifelong learner. Reviewing official: prepared for **higher responsibility** and described as a **tremendous asset** with potential to **excel** across demanding Army tasks.

Cyber Capabilities Developer Technician (170D) WOBC - U.S. Army - *April 2022 – October 2023*

*Reclassified to **170D** in **February 2022**; completed the branch **WOBC** for **170D** cyber capabilities developer warrant officers.*

- **Course completion and academic record:** Completed **Cyber Capabilities Developer Technician WOBC** (Class **22-002**); **3.8 / 4.0** GPA (**95.08%**); **Achieved Course Standards**; **APFT** pass and height/weight within standards. Rated **Far Exceeded Standards** in **character and accountability** and **leads, communication, and engagement**; **Met Standards** in intellect, presence, develops/collaboration, and achieves/lifelong learner.
- **Programming rigor and project volume:** Completed **24** three-day and **five** two-week programming projects plus a **two-week** Basic Skill Level Exam **capstone**; rater cited **exceptional** performance with strong competency in **C** and **Python** across **data structures and algorithms**, **operating systems**, and **network programming**.
- **Class leadership and peer development:** Served as **class leader**; reviewing official cited **breadth and depth** in **applied programming** and **cyberspace operations**, strong **critical thinking** and **problem solving**, and readiness for **future and nominative** roles.

Marine Engineering Officer (881A1) - U.S. Army - *September 2020 – February 2022*

*163rd Transportation Detachment · Joint Base Pearl Harbor–Hickam, HI · **USAV Lt. Gen. William B. Bunker** - Army **logistics support vessel (LSV)***

- **Watch, property book, and dual-detachment CSD: Third assistant engineer** (**watch officer**, **officer of the deck**) on a **273-foot**, **~$25M LSV**; **property book officer**, **vessel supply officer**, **GPC** holder, and **DLA** coordination over **~2,400** repair-part lines, **634** BII, **CSD**, **unit funds**, and classes **II, III, IV, VIII, IX**. Property books **~$10.9M** (per evaluation), **multiple crews**; **CSD** for **163rd** and **411th** Transportation Detachments, **100%** on rated inventories, **change-of-command** inventories on additional hulls.
- **Spend, surplus, and enterprise systems: >$50K** in **sustainment, repair, and safety** (rated period one) and **>$100K GPC** (rated period two), **zero discrepancies**; **>$150K excess** turned in to improve fleet efficiency. **GCSS-Army** / **GFEBS**: **30+** property-book actions cleared, **GFEBS** workflows, **third-engineer continuity** reference, **SOP** refresh, **Lean Six Sigma** to streamline routine supply.
- **Partners, hull readiness, and team development:** Widened **SSA** / **DLA** supply access for a partner detachment; **potable-water**, **habitability**, and **below-deck** upgrades on assigned hulls. Mentored **supply officers and NCOs**, aligned with **battalion** property-book leadership, and produced reference products for vessel supply teams.

Marine Engineering Officer WOBC - U.S. Army - *October 2019 – September 2020*

U.S. Army Transportation School · Joint Base Langley–Eustis, VA

- Completed the **Marine Engineering Officer Warrant Officer Basic Course** (Class **001-20**), the branch **WOBC** for **881A** marine engineering warrant officers; **~1,550 hours** of facilitated instruction across **six** academic departments with **22** performance evaluations and **16** written examinations.
- **Distinguished Honor Graduate**; finished **1 of 12** in class standing; named to the **Commandant's List** (top **20%**); earned an overall average of **96.91%**; rated **Far Exceeded Standards** in all **six** evaluated areas (character, presence, intellect, leads, develops, achieves).
- Academic leadership cited **strong technical competency**, judgment on **complex marine-engineering** subject matter, and readiness for **follow-on military and civilian education**.

Junior Marine Engineer (88L) - U.S. Army - *February 2018 – June 2019*

*97th Transportation Company · Fort Eustis, VA · U.S. Army **Landing Craft Utility (LCU)***

*Reclassified from civil affairs to **88L (Watercraft Engineer)**; completed **88L technical progression through senior maintainer levels (10-/20-/30-level)** training and licensing requirements before **selection** for **881A1 (Watercraft Engineering Technician)** and attendance at **Warrant Officer Candidate School (WOCS)**.*

- **Propulsion plant & crew technical leadership:** Served as **junior marine engineer** on an Army **LCU**, supervising **one NCO and two soldiers**; oversaw **main propulsion**, **ship's service power**, **auxiliary machinery**, **hydraulics**, **refrigeration**, **compressed air**, and **damage-control**, keeping **>$6.5M** in machinery **fully mission capable**, while leading **section drills** and **crew training** and supervising **65+ systems/subsystems** for readiness.
- **Safety, supply accountability, and licensing: Vessel maintenance NCO**, **Hazmat NCOIC**, **vessel safety survey** NCO, and **range safety officer**; tracked **annual safety survey** tasks to **100%** on-time completion. Ran **change-of-command inventories** and organized **400+** basic issue item (**BII**) lines (**>$30K**); earned **EPA Section 608 universal** certification; completed **LCU engineer 10- and 20-level licensing packets** on an **~90-day** timeline (per evaluation).
- **Fitness recovery & tactical NCO leadership:** Battalion **Reconditioning Physical Readiness Training (RPRT)** instructor; returned **20 injured soldiers** to **100%** deployable fitness; **acted as platoon sergeant** during a battalion **NCOPD** field exercise (**54 NCOs**, **zero** safety violations).

Civil Affairs NCO (38B) - U.S. Army - *September 2016 – February 2018*

*Alpha Company, 91st Civil Affairs Battalion (Airborne), U.S. Army Special Operations Command · Fort Bragg, NC · four-person SOF airborne civil–military team aligned with **U.S. Africa Command** special operations*

- **CAO, CIM, and forward employment (East Africa):** Planned and executed **civil affairs operations** (**assessments**, **civil information management**, population-focused analysis, and support to **non-lethal targeting** and mission planning) with **host-nation**, U.S. interagency, and multinational partners; accountable for **>$500K** in team equipment and readiness. **Forward deployed:** selected over peers for an accelerated rotation; supported **12 joint operations** as the team's **civil affairs** representative; contributed to **priority intelligence requirements** through CAO in high-threat settings; extended the **civil–military common operating picture** into sensitive and denied areas.
- **Assessments, stabilization support, and cross-functional influence:** Conducted **field assessments** of civil institutions and services (including **health-sector** capacity); facilitated **dialogue among local stakeholders** with competing interests; broadened **partner access** and civil-affairs reach through forward presence and regional engagement. Built collaboration across **civil affairs, psychological operations, and information-related capabilities**; supported **partner-nation** programs, including multiple efforts aimed at countering **violent extremist** influence; fielded **tactical SATCOM** that extended communications for **16** deployed special operations personnel.

- **Training architecture & professional development:** Planned, resourced, and executed **four company-level** training events, training **31 NCOs** on **four company mission-essential tasks**. **Credentials & education while deployed: NREMT**; **80+ hours** of language training (**Korean OPI 1+/1+**, met USASOC standard).

Civil Affairs Specialist Qualification Course - U.S. Army - *April 2015 – August 2016*

U.S. Army John F. Kennedy Special Warfare Center and School, Fort Bragg, NC

- Completed the **Civil Affairs Specialist Qualification** pipeline; awarded **MOS 38B (Civil Affairs Specialist)**.
- Finished course modules including **Introduction to Civil Affairs**, **Basic Special Operations Language Training (Korean)**, **Regional Analysis**, **Civil Affairs Specialist (MOS)**, and advanced **Civil Affairs** field training; received **Advanced Leader Course (ALC) Phase II** academic credit.
- Applied **civil-military** and **tactical** skills in **simulated combat and garrison** scenarios; school narrative highlights **adaptability**, judgment, and readiness to perform **Civil Affairs NCO** duties in operational settings.

Senior Radio Operator–Maintainer (25C) - U.S. Army - *December 2013 – April 2015*

163rd Transportation Detachment, Joint Base Pearl Harbor–Hickam, HI · Army Logistics Support Vessel (LSV) Detachment, OCONUS

- **Communications & maritime readiness:** Led a **squad** as **senior radio operator–maintainer** on an Army **LSV**, accountable for **bridge and detachment** communications (**>$1.5M**, **9–11 platforms**, **≥90%** readiness, **highest in the battalion** in the rated period) with **no loss or damage**; ran **maritime COMSEC** for classified material during **waterborne operations** and accounted for **man-overboard** safety systems for **36** crew during high-risk evolutions; supported **RIMPAC** by training **six** soldiers on multinational **radio** procedures (**100%** success on evaluated communications tasks).
- **Movements, training management, and fitness: Unit movement officer**; coordinated movement of **>$100K** in civilian and mission-sensitive equipment with **zero loss**; completed **Unit Movement Officers Course** (typically filled by officers or senior NCOs). As **training/orderly room NCOIC**, tracked administrative readiness for **41 soldiers**; as **special conditioning NCOIC**, returned **seven of nine** soldiers to a passing record **APFT** within **30 days** and later raised detachment remedial PT success to **98%**.
- **SOF assessments & recruiting (Hawaii):** On **special duty** with the **special operations recruiting team**, coached **50+** soldiers through **SF / CA / PSYOP** assessments (**40** selected); planned and led **land navigation, field craft, and physical training** for **80** candidates; **completed Civil Affairs assessment and selection** and was **selected for the Civil Affairs Qualification Course**; recognized by a **brigadier general** for a **team beach challenge** event.

Senior Radio Operator–Maintainer (25C) - U.S. Army - *July 2010 – December 2013*

Comanche Troop, 1st Squadron, 4th Cavalry Regiment, 4th Infantry Brigade Combat Team, 1st Infantry Division · Fort Riley, KS; deployed Afghanistan (OEF)

- **TOC, C2, and NCO leadership:** As **TOC NCOIC** and **assistant headquarters platoon sergeant** for a light cavalry troop, built **TOC battle-rhythm SOPs** and reporting so commanders received reliable **command-and-control / communications** in garrison and **OEF** operations centers; **acting headquarters platoon sergeant** for **three months** (**16 soldiers**, zero accountability or disciplinary issues); led welfare, training, and technical development for **9–22 soldiers** by operational phase.
- **Readiness at scale ($15M+, eight systems, zero loss):** Directed operation, maintenance, and fielding of **>$15M** in theater communications and **$1.1M** across **25 systems** during reset (**19 property line items**, **zero losses**, **≥90% readiness**, **highest in the squadron** the rated year); certified **19 soldiers** (including officers) on **eight** systems for **100%** mission-ready comms in theater, then sustained **100% mission-**

capable communications through **10** field exercises while training **40+ personnel** on radios and maintenance.

- **IA/cyber, training design, inspection: Unit IASO and IMO**; drove **information assurance and cybersecurity** compliance for **90+ soldiers**; authored a **nine-month** individual/collective training plan for **58 soldiers** during reset, developed a **successor senior radio operator**, and earned a **first-time "green"** on the **2013 reorganization inspection** (set the squadron standard).

Education

- **Master of Science in Computer Science** (concentration in Artificial Intelligence), *in progress* - Georgia Institute of Technology, Online M.S. in Computer Science (OMSCS) - *January 2026 – May 2028 (expected)*
- **Bachelor of Science in Computer Science**, concentration in Software Engineering (GPA 3.96) - Colorado Technical University (Colorado Springs, CO) *June 2025*
- **Associate degree in General Education** (GPA 4.0) - Fayetteville Technical Community College (Fayetteville, NC) *May 2020*
- **High school diploma** - Thomas Dale High School (Chester, VA) *June 2009*

Certifications

*Professional and civilian credentials (most recent first). Military schools and DOD-style quals are under **Military experience**.*

- **Certified Advanced Cyber Programmer (Windows CNO Programmer Course)** - Advanced Cyber Training Program - *November 2024*
- **Advanced Certified ScrumMaster (A-CSM)** - Scrum Alliance - *April 2024 (earned after CSM)*
- **Certified ScrumMaster (CSM)** - Scrum Alliance - *April 2024*
- **National Registry Emergency Medical Technician Qualification** - National Registry of Emergency Medical Technicians - *February 2017*

Military experience

Deployments

- **Afghanistan, 2012–2013** - 1st Squadron, 4th Cavalry Regiment, 4th Infantry Brigade Combat Team, 1st Infantry Division.
- **Somalia, 2017** - 91st Civil Affairs Battalion, 95th Civil Affairs Brigade

Military training and military-relevant credentials

- **Senior Cyberspace Capability Developer Qualification, Windows Persistence** - United States Cyber Command - *June 2025*
- **Basic Cyberspace Capability Developer Qualification** - United States Cyber Command - *December 2023*
- **U.S. Army Marine Certification** (Chief Engineer, Class A-1; Assistant Engineer, Class A-2, unlimited vessels) - U.S. Army - *September 2020*
- **Universal Technician, refrigerant processing** (CFC/HCFC/HFC and non-exempt substitute refrigerants) - DOD EPA Certification Program - *April 2019*
- **Military Mobile Force Protection Program and Advanced Skills Training** - Gryphon Group - *July 2017*
- **Advanced Negotiations Course** - DynCorp International - *October 2016*
- **SERE (Survival, Evasion, Resistance, and Escape), High Risk (Level C) graduate** - JFK Special Warfare Center and School - *April 2016*
- **Airborne School** - U.S. Army - *March 2015*

Skills

- **Leadership:** Technical Section Lead, Agile/Scrum
- **Delivery:** GitLab CI/CD, Git workflows, automated testing, release management
- **Languages:** C, Python, Bash, PowerShell
